

CITY OF FLAGSTAFF WILDFIRE THREAT ANALYSIS

KEY TO FEATURES:

- EXTREME
- SEVERE
- HIGH
- ELEVATED
- GUARDED
- LOW

Developed using the Weighted Overlay tool in ArcGIS 9.1. Layers were developed and clipped to the Flagstaff City limits. Layers of influence include: accessibility, hydrant coverage, ponderosa pine locations, encumbrance, slope, fuel treatments, roof type, and structure risk. This map is for planning purposes only, no warranty of accuracy is implied or given.
